

14 January 2022

Dear Parents / Carer

ROOKS HEATH SCHOOL: *Strive to be your best* & On TRACK Values – The launch

You will recall that the name of the school and the mission statement was changed a year into my tenure at the school – in September 2020. Unfortunately, due to the pandemic and the periods of remote education, we did not feel it was appropriate to launch our newly branded school with the refreshed approach to our new mission statement remotely with our student community. The On-TRACK values were also relatively new, having been introduced only in the autumn term of 2019.

Starting from Monday 17th January, we will use the week to celebrate the changes and put forward the key messages of our mission statement, vision for the school and revisit and reinforce the On-TRACK values.

We would like our students to foster a sense of pride and have a shared understanding of our mission, vision and values. Never has it been more important than now, to secure the values by which we conduct school business as they underpin all the work we do. During the assembly, students in years 7 – 10 will receive a brand-new school tie, free of charge, which represents their year group identity.

In order to hear the message that we are giving to all students throughout the week, I would like to invite you to tune into the Year 10 assembly live online. It will take place on Thursday 20th January at 8:50am. A link to the assembly will be posted on our website so you may join. This will be broadcast using Microsoft Teams.

I hope you will be able to spare approximately 15 minutes to join the assembly and hear the key messages.

Yours sincerely

Mrs Miriam Manderson
Headteacher
