Dear Parents / Carers,

RE: Temporary closure of D Block playground

We are writing to inform you of an incident that occurred today, which resulted in the temporary closure of the D Block playground for students for part of the day.

The incident was connected to an external building team working at a local resident's property. The matter related specifically to equipment being used by the contractors. As a precaution, and to ensure the safety of our students (and staff), we made the decision to close the D Block playground area while the situation was addressed.

The police have been contacted and are expected to attend to speak with the residents' builders and support in resolving the matter.

We will continue to monitor the situation closely and will reopen the D Block playground area once we are confident that the matter has been fully resolved and the area is safe for students to use.

I stress that there is no risk to any students or staff in nearby areas.

Thank you for your understanding and cooperation while we manage this situation. The safety and wellbeing of our students remain our highest priority.

Yours sincerely,

Mr S Ahmed
Deputy Headteacher
