Dear Parents / Carers,

RE: Sparx Maths homework

We are writing to remind you of the expectations for Year 7-11 regarding **Sparx Maths homework** and to encourage your child to ensure they are completing this each week.

At Rooks Heath School, we believe that regular practice is essential for developing mathematical confidence, fluency and problem-solving skills. Sparx Maths provides every student with personalised homework that is carefully tailored to their level of understanding, helping them to consolidate learning from lessons and make consistent progress.

Your child is expected to complete their weekly Sparx Maths homework by the deadline set by their teacher. Homework is visible on **Bromcom** and **Sparx Maths**, and you will receive regular updates regarding your child's progress. We encourage you to monitor their completion rate and ensure that all assigned work is completed on time.

Sparx Maths homework is designed to:

- Reinforce learning from classroom lessons.
- Build fluency and confidence in key mathematical skills.
- Develop independent study habits.
- Identify misconceptions and provide opportunities for further practice.

Students must complete all compulsory tasks assigned to them each week. If a question is answered incorrectly, Sparx Maths provides additional support and follow-up questions to help students develop their understanding before moving on.

How do students log in?

- Students log in at **sparxmaths.uk**.
- They should search for **Rooks Heath School** and sign in using their school Microsoft account credentials.

Which devices are supported?

- Sparx Maths can be accessed on any device with an internet connection and a web browser, including laptops, desktop computers, tablets and Chromebooks.

How can I support my child with their homework?

- Encourage your child to complete their homework in a quiet environment free from distractions.
- Ensure they allow sufficient time each week to complete all tasks before the deadline.

Headteacher: Mrs. M. Manderson B.A.(Hons),
PGCE, NPQH

CEO: Dr. John Reavley, B.A. M.A. Ed.D.
www.rooksheath.harrow.sch.uk

- Rather than giving answers, encourage them to explain their thinking and discuss the strategies they are using.
- Ask your child what topics they are working on and what they have learned recently in their mathematics lessons.

How can I monitor the work my child is doing?

- Parents and carers receive regular updates regarding homework completion.
- You can ask your child to show you their Sparx Maths dashboard, which displays completed tasks, XP earned and any outstanding work.
- Monitoring homework regularly helps ensure that any difficulties are identified early and support can be provided where necessary.

What support is available at Rooks Heath?

If your child requires additional support with their mathematics homework, they are welcome to attend our **Homework Club**, which runs Monday to Friday from **3:15pm to 4:15pm in the Library**. Maths staff also offer additional support **after school on Thursdays**.

We would greatly appreciate your support in ensuring that your child completes their Sparx Maths homework each week. Consistent completion of homework has a significant impact on student progress and achievement in mathematics.

If you have any questions, please do not hesitate to contact us via email at contactus@rooksheath.harrow.sch.uk
Thank you for your continued support.

Kind regards,

Mr Al-Husayni
Head of Maths
