Dear Parent/Carer

Re: Whole School SEND Project

We are writing to inform you that Rooks Heath School will be taking part in the Whole School SEND Project led by NASEN, The Education Endowment Foundation and Manchester Metropolitan University. This is an exciting project that complements our firm belief in inclusion. The project will support schools to enable all learners to succeed with their learning. The results of the study will be published in a report in 2023.

The project will involve students in Year 8 and Year 9 and will gather their experiences as a learner at Rooks Heath. They will need to complete a strengths and difficulties questionnaire at the beginning and towards the end of the project. All data collected will be anonymised and no student will be identifiable from their responses.

If for any reason you wish for your child's data to be omitted from the study, please return the slip at the bottom of the Parent/Guardian Information Sheet. Further information about the project is also included in this sheet.

We will continue to update parents and carers as the project develops. If you have any questions about the project, please contact learningsupport@rooksheath.harrow.sch.uk.

Yours sincerely,

Mr C. Ring
Assistant Headteacher
